

## **Affirming Life in Venezuela, Seeds of Solidarity Solidarity Messages from 7/29/2017 Event Co-Sponsors**

### **Alliance for a Secular and Democratic South Asia**

The last few months have seen the waging of a brutal war against the Bolivarian Revolution by the Venezuelan reactionary opposition parties wearing a fake democratic veil, people working at the behest of the US imperialism. Systematic attempts have been made to topple the popularly elected Maduro government and reverse the foundational strides it has made in achieving economic and political independence, equitable distribution of natural resources, grassroots political participation, universal healthcare, economic equality and social justice. Alliance for a Secular and Democratic South Asia stands in solidarity with the Venezuelan people in their struggle to defend their sovereignty and further the gains the revolution has made in the last two decades.

### **Boston May Day Coalition**

The Boston May Day Coalition stands in solidarity with the people of Venezuela in their struggle for food sovereignty and self-determination. The country is facing a deep social and economic crisis which has given rise to a murderous fascist movement. We see it as the duty of folks here in the US join together with folks in Venezuela in the people to people campaign to distribute Seeds of Solidarity.

### **Boston Socialist Party**

The Boston Socialist Party endorses/co-sponsors the July 29 event affirming life in Venezuela as part of an effort to oppose continued US intervention against that country and a way to express solidarity with the Venezuelan people.

### **Chelsea Uniting Against the War**

Chelsea Uniting Against the War / Chelsea Uniéndose En Contra de la Guerra (CUAW) joins organizations around the country in condemning and denouncing the violence and assassinations being carried out by the reactionary opposition in Venezuela to disrupt the Bolivarian Revolution and we support the efforts to bring solidarity to the people of Venezuela through a real grassroots campaign to distribute Seeds of Solidarity.

## Committee in Solidarity with the People of El Salvador

The Boston Chapter of the Committee In Solidarity with the People of El Salvador (CISPES) extends our warmest solidarity to the Venezuela Solidarity Committee of Boston and pledges to give our utmost assistance to the work of safeguarding the gains of the people under the Bolivarian project; repelling the destabilization campaign of the Venezuelan right and contesting US intervention that underlines reaction throughout the Americas. We call on

everyone to join us in supporting the Seeds of Solidarity Project and to involve themselves in the work of the VSC.

Que Viva La Solidaridad Internacional! Long Live International Solidarity!

## Communist Party USA of Greater Boston

The Communist Party USA of Greater Boston denounces the violence and assassinations being carried out by the right-wing opposition in Venezuela. We call on working people here to oppose the intervention of the US and Colombian regimes in their effort to install a regime in Venezuela subservient to Washington. Let's join together in supporting the Seeds of Solidarity campaign.

## Democratic Socialists of America

We state our solidarity with the people of Venezuela and call on our own government to stop its illegal, unjust interference with Venezuela, specifically to repeal these terrible laws and reverse this dishonest executive order. (From <http://www.dsausa.org>)

## encuentro5

encuentro5 supports the Seeds of Solidarity project as the perfect example of people-to-people solidarity. It is in stark contrast to US government's relationship with the people of Venezuela. Where the first respects

choices and strategies of the Venezuelan people, the second exploits and subverts those choices at the behest of powerful corporations, military interests, and entrenched economic elites. The first promotes life and sovereignty while the second promote extraction and polarization.

Contact: [www.encuentro5.org](http://www.encuentro5.org)

## International Action Center

The International Action Center calls on all peace and justice loving people to speak out and take action in total solidarity with the Bolivarian Revolution in Venezuela against the US-sponsored fascist counterrevolutionary movement, which has burned pro-government activists alive and firebombed and assaulted government buildings. We demand no sanctions, no U.S. intervention, **HANDS OFF THE BOLIVARIAN REVOLUTION!**

## July 26 Coalition in Solidarity with Cuba

The July26th Coalition of Boston has long supported the sovereignty and dignity of Cuba against persistent attacks by the United States. It goes without saying that every country should enjoy and defend the same rights. We urge people to inform themselves about the reality in Venezuela to participate in the ongoing battle of ideas that will play a major role in our collective future.

Contact: [www.july26.org](http://www.july26.org)

## Party for Socialism and Liberation

The Party for Socialism & Liberation stands in fully solidarity with the anti-imperialist and socialist struggle of the Bolivarian Republic of Venezuela. We denounce the neocolonialist fascist assault on Venezuela's sovereignty and national independence. Part and parcel of this struggle is a struggle over food sovereignty solving the land question. Venezuela will not become another Afghanistan, Libya, or Syria! The PSL emphatically demands No Sanctions! U.S. Hands Off Venezuela! Long Live the Bolivarian Revolution!

## United for Justice with Peace

Oppose US intervention in Venezuela, Support Seeds of Solidarity

The main source of war in Latin America and the Caribbean for almost 200 years has been the countless US military actions. Today, the US militarists are working for regime change in Venezuela with sanctions, economic pressure and support for the rightwing opposition. United for Justice with Peace opposes all such interventions; the people of Venezuela should be free to make their own decisions according to dialogue and constitutional means. We congratulate the Boston Venezuela Solidarity Committee for its Seeds of Solidarity program, which builds goodwill and trust and strengthens people-to-people relations, opposing violence and war and working for peace and reconciliation.

## Workers World

Workers World Party condemns the intervention of U.S. Imperialism against the Bolivarian Revolution of Venezuela. what has been happening in Venezuela is a counterrevolution by the most reactionary forces of the opposition to President Nicolás Maduro's government. It is no different from what the U.S. did with [dictator Augusto] Pinochet in Chile in 1973, with the 'contras' in Nicaragua in the 1980s and more recently against Libya and now in Syria. It is a 'regime change' effort. Trump is now threatening Venezuela with sanctions. His secretary of state be none other than Rex Tillerson, former head of ExxonMobil.

Defend Bolivarian Venezuela! Say no to U.S. imperialism!
